Amendment After Final Rejection

IN THE SPECIFICATION:

Amend the paragraph at page 4, lines 20-24 such that it reads as follows:

Although each of the sheets 12 is illustrated as being coupled to any adjacent sheet by an adhesive 20 (i.e. a binding means) at each of the corners 22 thereof, any of a wide variety of methods or binding means for coupling each sheet 12 to any adjacent sheet 12 may be used without departing from the scope of the present invention. For example, adhesives, mechanical fasteners, such as staples, clips, brackets and the like may be used as binding means for coupling the sheets 12.
